

TRIAL IN DEATH OF GEORGE FLOYD LISTENING SPACES

MSU CAPS recognizes the continued pandemic that is racial discrimination. We recognize that racial discrimination occurs on a frequent and ongoing basis, in a variety of ways, for our MSU students. Many have been watching the trial of the police officer accused in the death of George Floyd. These CAPS listening spaces are for students to process their feelings, thoughts and reactions related to the death of George Floyd, the trial and the verdict. **These listening spaces are open to current, registered MSU students only.**
