

Beyond the Binary: A Gender Identity Spectrum Support Group

A safer space for support for undergraduate and graduate students, especially those who are exploring or identify as transgender, gender fluid, non-binary, and/or gender nonconforming.

Potential topics of discussion include challenges of coming out to self and others, identity development, limitations of labels, negotiating gendered-environments, identity-affirming relationships, coping with minority stress and gender binary norms, accessing supportive health and social services, aspects of transitioning process and adjustment to social identity, family dynamics and impacts on wellness, needs and impact of being closeted, being TGNB at MSU.
